## REFERENCE SHEET

### INK JET TRANSPARENCY FILMS

# 348.25

#### REMOVABLE TOP STRIPE

Film for imaging by the ink jet process, providing a colored image on a transparent background. Film is designed as a “universal” product for use in all ink jet printers.

Availability:	8.5 x 11, 11 x 17, A4 and A3 sheets
Features:	Clear transparency film for sharp, rich images. Durable 4-mil film lies flat for presentations. Film is fast drying, fade resistant and smear resistant.

#### Technical Properties

Smoothness, Sheffield:	25±20 per TAPPI T538 Test Method.
Haze, %:	4 maximum per ASTM D1003 Test Method.
Optimal Service Environment:	Between 59° and 86°F. and 30% to 70% RH.
Print Resolution:	Dependent upon printer used.
Ideal Storage Conditions:	Between 59° and 77°F. and 30% to 70% RH.
Shelf Life:	Minimum of 2 years from Arkwright ship date when stored under ideal storage conditions (see above).

## Application Guidelines

### PRINTING INSTRUCTIONS

1. Handle film by the edges to avoid fingerprints.
2. As indicated on the printed stripe, the reverse side is the imaging surface of the film.
3. In most cases, the striped edge of the film should face the feeding side of the paper tray.
4. For multiple images, fan the required number of sheets before stacking in paper tray.  
Note some printers may require single-sheet feeding.
5. After film is imaged, the stripe can be removed and discarded.
6. Let film dry a few minutes before re-stacking.
7. Plain paper can be placed between imaged film for storage.

### OTHER INFORMATION

- Make sure to select the proper media setting (transparency) from the print menu.
- Check your printer manual for additional printing instructions.
- Before printing final image, produce on economy grade ink jet paper to test for layout and design.
- Keep product in closed package between uses; store in a cool, dry place.
