885.51 Light Fabric Transfer

Solvent Inkjet (Eco, Mild, Standard Solvent, HS)

885.51 is a fabric transfer media specifically designed to create brilliant colorful images on white or light colored fabrics. Best results can be obtained by transferring to a fabric consisting of 100% cotton. The fabric transfer is carried on a special kraft release liner, so no transfer paper is needed. This media can be contour cut with a print/cut device or a standard vinyl plotter.

Simply print image in reverse, cut unwanted area, and heat (press or iron) on a light or white colored cotton fabric.

Feature	Advantage	Benefit
Fade resistant	Color stays brilliant after multiple washings	Durable, long lasting image
Versatile and easy to use	Print - Cut - Apply	Save production time
Soft silky feel	Professional silk screen look	Natural "soft" cloth texture
Kraft release liner	Carrier for transfer media	No need for transfer paper
Ability to be contour cut	Easily produce correct size transfer needed	Save time and media

Basis Weight: 140 gsm
Total Caliper: 6.5 mil
Brightness: 85 (min)
