K3
Lucia Pigment

FINISHING RECOMENDATIONS

Protect prints imaged with dye inks under glass or laminate to increase gas-fastness.
Use low melt or pressure sensitive laminates to extend the life of the print and increase its durability.
For best results use thinner and flexible laminates.
Allow 24 hours for ink to cure before protecting image.

STORAGE CONDITIONS

Temperature 59o-86oF. (15°-30°C).
Repack opened rolls when not in use.
One year shelf life at conditions noted above.
Allow material to stabilize to room conditions for 24 hours before use.
