

73938

Instant Dry / Microporous Photo Paper **GLOSS**

9 mil

PRODUCT DESCRIPTION

73938 is the ultimate GLOSS photopaper ideal for any photographic or display graphics application. The bright white microporous topcoat means your prints will be instantly dry and water resistant. Wide color gamut and accurate skin tones are standard with all Arkwright photopapers, yet 73938 also boasts superior shadow detail and extremely low dot gain. 73938 is optimized for today's wide gamut pigment ink photo quality printers such as Canon, Epson and HP.

 Lucia Pigment

FINISHING RECOMENDATIONS

Protect prints imaged with dye inks under glass or laminate to increase gas-fastness.
 Use low melt or pressure sensitive laminates to extend the life of the print and increase its durability.
 For best results use thinner and flexible laminates.
 Allow 24 hours for ink to cure before protecting image.

STORAGE CONDITIONS

Temperature 59o-86oF. (15°-30°C).
 Repack opened rolls when not in use.
 One year shelf life at conditions noted above.
 Allow material to stabilize to room conditions for 24 hours before use.
