ARKWRIGHT PRESS RELEASE

FOR IMMEDIATE RELEASE

Arkwright Announces Four New Specialty Media for Solvent Inkjet

June 10, 2006 – Arkwright, a worldwide leader in developing, coating, converting, and marketing digital imaging films, papers, and substrates, announces the addition of four new products specifically designed for use with solvent and eco-solvent printers. Additional specialty solvent products will be released when they are available. “One of Arkwright’s differentiators in the marketplace is our ability to deliver coatings that produce outstanding color gamut, density, and drytime. The evolution of the solvent inkjet market has created the need for coated materials like photo papers, backlit films and posters papers, says Andreas DeGroot, solvent product manager for Arkwright. Arkwright solvent media is compatible with all of today’s major brands of wide format solvent inkjet printers.

For more information on these products please contact Tony Muscatelli: 401.821.1000 ext 3439

704.70 – Backlit Film - 7 mil polyester front-print, backlit film is water resistant and produces brilliant color and maximum transmitted and reflected ink densities.

705.00 – Photo Paper - 6 mil smooth satin photo paper designed to produce brilliant colors and high image resolution with solvent and eco-solvent inkjet printers.

708.00 – Poster Paper - 140 gsm solvent poster paper is a latex saturated poster paper, designed to maintain cohesive strength when wet. It can be used as a wall covering when applied with standard wallpaper paste.

709.00 - Poster Paper - 212 gsm solvent poster paper is a heavyweight latex saturated poster paper, designed to maintain cohesive strength when wet. It can be used as a wall covering when applied with standard wallpaper paste.
